Re: KUBA (AM), Yuba City, California
Facility Identification Number: 56365
Nevada County Broadcasters, Inc.
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed August 22, 2007, on behalf of Nevada County Broadcasters, Inc. ("NCB"). NCB requests extension of the special temporary authority ("STA") granted on February 16, 2007, to operate Station KUBA with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits.¹ In support of the request, NCB states that Station KOBO has been restored to operation with licensed power and that it is in the process of preparing an application for direct measurement of operating power for filing with the Commission.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KUBA may

¹ KUBA is licensed for operation on 1600 kHz with 5 kilowatts daytime and 2.5 kilowatts nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

continue to operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. NCB must notify the Commission when licensed operation is restored.² NCB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 30, 2008**.

Sincerely,

A handwritten signature in dark ink, appearing to read "C. N. Miller", written in a cursive style.
